

Our single-axle pan type tilt-deck trailers are designed for hauling small equipment. The T-5DT deck features white oak wood and 7-inch high sides. The low deck height offers a shallow tilt angle that allows small equipment to easily climb the incline. It features a rubber-ride axle, electric brakes, adjustable hitch, and a positive locking (over-center) latch system to safely keep the deck secured to the frame.

Positive locking (over-center) latch system keeps deck secured to the frame.

Grommet mounted LED lights are standard.

The "SL" (Scissor Lift) option included ramps to lower the loading incline.

#### Quick Specs:

- 2" nom. oak wood deck
- 14" deck height (loaded)
- 77" load width
- 12' or 14' deck
- EZ lube axles
- Forward self-adjusting electric brakes
- One-piece formed fender
- Low approach angle
